

CREATING YOUR COUNT BOT IN SLACK

STEP 1: GO TO API.SLACK.COM & CLICK ON 'START BUILDING'

STEP 2: NAME THE APP 'COUNT-BOT', ADD TO YOUR SLACK WORKSPACE, THEN CREATE APP

Create a Slack App

App Name

count-bot

Don't worry, you'll be able to change this later.

Development Slack Workspace

 HelloFresh Demo

Your app belongs to this workspace - leaving this workspace will remove your ability to manage this app. Unfortunately, this can't be changed later.

By creating a Web API Application, you agree to the [Slack API Terms of Service](#).

Cancel

Create App

STEP 3: GO TO 'OAUTH & PERMISSIONS' AND SET PERMISSION SCOPE TO 'SEND MESSAGES AS COUNT-BOT'

 count-bot

Settings

- Basic Information
- Collaborators
- Install App
- Manage Distribution

Features

- Incoming Webhooks
- Interactive Components
- Slash Commands
- OAuth & Permissions**
- Event Subscriptions
- Bot Users
- User ID Translation

Scopes

Scopes define the [API methods](#) this app is allowed to call, and thus which information and capabilities are available on a workspace it's installed on. Many scopes are restricted to specific [resources](#) like channels or files.

If your app is submitted to the Slack App Directory, we'll review your reasons for requesting each scope. After your app is listed in the Directory, it will only be able to use permission scopes Slack has approved.

Select Permission Scopes

Access user's public channels	channels:read
Access information about user's public channels	channels:write
Modify your public channels	chat:write:bot
Send messages as count-bot	chat:write:user
Send messages as user	groups:history
Access content in user's private channels	groups:read
Access information about user's private channels	groups:write
Modify your private channels	

Restrict API Token Usage

STEP 4: GO TO 'INSTALL APP' AND INSTALL APP TO WORKSPACE

count-bot

Interactive Components

Install App to Your Team

Install your app to your Slack workspace to test your app and generate the tokens you need to interact with the Slack API. You will be asked to authorize this app after clicking **Install App to Workspace**.

Install App to Workspace

STEP 5: PRESS AUTHORIZE

On HelloFresh Demo, count-bot would like to:

Confirm your identity on HelloFresh Demo

Send messages as count-bot ▶

Cancel

Authorize

STEP 6: THE OAUTH ACCESS TOKEN IS WHAT IS NEEDED TO COPY INTO THE PYTHON SCRIPT
